WEDNESDAY.....NOVEMBER 28, 1883.

A GOOD SCHEME.

The land scheme outlined by E. L. Fulton in last night's issue of our contemporary is one of the very best ever proposed for this section. It involves the consolidation of vast tracts of land now held by the Central Pacific, and the cession by the State of the interest held by it in other tracts, as a basis upon which bonds may be issued to construct a canal to convey water to the lands northwest of Reno, thereby make productive a fertile and lovely section of country, benefitting all concerned. Every citizen of Reno should endeavor to aid in accomplishing the object sought to be attained. The country is growing, and Reno's natural growth will keep pace with the progress elsewhere, but we ought also to improve the advantages offered to us, and secure more than our share of the natural growth. A little work and a little money and it can be easily done.

The vote of Virginia is officially returned as follows: Cleveland, 151,977; Harrison, 150,442; Cleveland's apparent plurality, 1,532. We say "apparent" for this is the plurality as it appears on the face of the altered returns. It is a matter of common notoriety that by the changing of votes the Republicans were robbed of nearly 6,000 votes and that the State was carried by them by about 4,000 plurality. The most of this robbery was perpetrated in the Second and Fourth Congressional Districts, which two years ago went Republican by an aggregate of 15,000 majority. Thirty counties in Southwest Virginia showed a Republican gain of 8,000 and Blaine was only beaten 6,141 four years ago. The fraud was an open and shameless one, but it will not be allowed to stand without a contest. It will be taken into the Courts under the laws of the State which provide ample relief in case of fraudulent counting, and the whole disgraceful business will be ripped up from top to bottom. It will not be allowed to stand without a fight.

A BOURBON SENATOR.

One to Be Chosen by the Kentucky Legislature.

CHICAGO, Nov. 25.—The Times' Louisville (Ky.) special says: The next Kentucky Legislature will be called upon to elect a successor to J. C. S. Blackburn in the United States Senate. Among the contestants for the office are Senator Blackburn, Speaker Carlisle, Congressman McCleary, ex-Congressman Brown and Governor Buckner. Senator Blackburn has possibly the advantage. He is in possession, which is a powerful lever toward re-election, his following is already organized, and he has made himself popular with the people.

Carlisle has no money to spend, and is not the politician that Blackburn is. He is altogether of a different type; but his great ability and his national reputation for honesty and firmness have given him a deep hold upon the people. If he wants to be Senator, and will say so, it does not seem likely that Blackburn can defeat him, with all his arts and all his powerful friends. Moreover, if he enters the race his candidacy will mean the withdrawal of all the other men with the possible exception of Blackburn.

Dismissed on Account of the Child.

SAN FRANCISCO, Nov. 26.—Judge Murphy to-day dismissed the five charges of forgery which have been pending against Mrs. Clara Belle McDonald for the past year. The principal reason of the dismissal, as stated by counsel, was the injury that the trial for forgery would do Mr. McDonald's child.

The Chicago News Washington special says: A gentleman just from Indianapolis brings us the following news: Blaine has never been thought of in connection with the Cabinet. John Sherman will be Secretary of State, if he will accept. The Secretary of the Treasury will be either Allison or Miller. If Allison declines, Clarkson will go into the Interior Department. Some Southern man will be Attorney-General, and he will be selected from one of the States that may be made Republican. This means Virginia, West Virginia, North Carolina or Tennessee.

The publication of the twenty-second volume of the tenth census report, which has just been issued, completes the most elaborate work of the kind ever undertaken in the world. The taking of the tenth census was provided for by an act of Congress approved March 3, 1879 appropriating \$3,000,000 for the work.

The President's message, it is stated, will refer to nothing but the success of the present Administration, the necessity of Tariff reduction and Civil Service Reform.

Senator Quay, Chairman of the Republican National Committee, says that the Republicans will have a majority of nine in the next House.

The committee on the inauguration ball at Washington, wants \$75,000. So far, \$36,500 have been subscribed.

Illinois wants Congressman Payson for Secretary of the Interior.

BLAINE'S PLANS.

A Report That He Will Edit a New York Magazine.

NEW YORK, November 25.—The report, published on Saturday, that James G. Blaine was about to become editor of the American Magazine aroused interest among publishers and local politicians. There has been so much talk about Blaine's relation to the coming Administration that a report of his prospective return to the editorial chair is a matter of more than ordinary importance.

Blaine is without occupation. It is known that after his defeat the advisability of his entering the field of journalism was discussed by him and his intimate friends. Walker Blaine does not like it out West, preferring literature to law, and being very closely associated with his father in tastes and ambition.

A prominent publisher near Astor place said, when asked for his opinion, that he believed there was more truth in the report than most people fancied. "Blaine," said he, "need not quit politics to become an editor. If he goes into the literary field it will be to make money to hold and increase his influence."

"What publication will he associate with?"

"That's a puzzler. He wrote for the American Magazine last September, and it is generally acknowledged that Blaine likes that periodical because it professes to be strictly American and in full accord with his views. Then, too, there is a new management and an entirely new directory elected. The gentleman then manager, but now president of the company, went to visit Blaine soon after the publication of his article, and spent several days with him over what was regarded as his future plans. It was reported that Blaine was offered \$30,000 and an interest for regular contributions."

A. E. Davis, of the American Magazine, was seen at his office, 749 Broadway, but declined to be interviewed.

He would neither admit nor deny that Blaine had been invited to take editorial charge of the magazine, nor would he say whether the management was preparing to establish a weekly publication under Mr. Blaine's direction.

Some Southern man will be Attorney-General, and he will be selected from one of the States that may be made Republican. This means Virginia, West Virginia, North Carolina or Tennessee.

A number of Reno politicians got together the other day and made selections for every federal office in Nevada, including the Reno Postoffice. They sent an agent to San Francisco to work up the business.—Gazette.

If the election was not over the Journal would suggest that the above be placed as a companion piece with "Cleveland's Luck" and "The Campaign Lie."

The internal revenue receipts during the last year were greater than those of any other year (except 1883) in the history of the country.

EDISON'S TALKING DOLL.

"I Love You, Mamma," It Says to a Reporter, and Then It Sings "Rock-a-Bye Baby" Without Making a False Note.

NEW YORK, Nov. 22.—A talking doll is Thomas A. Edison's latest invention. In his laboratory at Orange, New Jersey, there are numbers of dolls that speak quite naturally. "Dollphones" is what he calls them. They are not like the old fashioned kind that say "Mamma" when pressed in the diaphragm, but they repeat long sentences and talk with ease. Mr. Edison has been working at the invention for two years, and only lately completed it. It is so constructed that phonograph cylinders are interchangeable, and new sets of sentences may frequently be introduced into the toy's talking machine. This is a little phonograph with a clock-work accompaniment, which is placed in the doll's back.

Mr. Edison showed number of the "Dollphones" to a reporter today. Some of them were dressed and ready to entertain company; while others, while they could speak, did so, strange to say, without the use of their heads. Mr. Edison picked up one of the dolls, whose golden, curly hair and pink cheeks were lovely in their perfection and whose light blue eyes stared in mild surprise at the reporter, and winding her up by inserting a clock key in the small of her back handed her to the reporter. He then pressed a spring and the doll, still looking at the reporter, said in a plaintive tone:

"I love you, mamma; I love you dearly, mamma; but I am tired and sleepy now. Please put me in my little bed."

The doll continued to stare with the widest of wide open blue eyes at the reporter while asserting the fact that she was sleepy, but the distinctness with which she said it and the guileless expression of her pretty face convinced him that she was telling the truth, so he laid her gently down on the table near by.

Then Mr. Edison wound up a brusette doll, with jet black curls and sparkling brown eyes. This doll started off at a brisk rate with the following:

"Twinkle, twinkle, little star,
How I wonder what you are,
Up above the world so high,
Like a diamond in the sky."

Another doll-baby sang in a sweet, childish treble "Rock-a-by Baby on the Tree Top" all the way through with good expression and without a false note. She sang it quite loudly, too, so that any one could have heard her across a moderate-sized room. Still another sang a pretty little German song.

TYPHOID FEVER.

An Epidemic That is Seeking its Victims Among the Upper-Ten-dom.

NEW YORK, Nov. 25th.—Typhoid fever is almost epidemic in this city and Brooklyn. It seems to be confined to well-known and wealthy people. The death of Lasker H. Marvin, a prominent broker, occurred ten days ago from this disease, and was soon followed by the deaths of Miss Martha Watson, a young society belle, and Mrs. Alma Stafford, young bride of seventeen years Coleman D. Brayton, son-in-law of William Astor, is dangerously ill, as is also Harry Alexander, the rich Cuban steamship man. Ex-Minister to Holland Isaac Belle is ill with typhoid fever at Newport, and Mrs. Augustus Whiting, a prominent society matron, died there on Saturday from the same disease.

A Washington special to the New York Herald says prominent Republicans there regard three Cabinet positions as provided for. Ex-Senator Platt, of New York, will be Secretary of the Treasury, Russell A. Alger, of Michigan, will be Secretary of War, and John Wannamaker, the well-known Philadelphia merchant, Postmaster General. It is not thought that either Blaine or Sherman will be in the Cabinet.

Mrs. Harrison is not averse to the bustle in a reasonable stage of development when constructed of good Republican newspapers, but she is decidedly opposed to the extreme style of décolleté dress. There will be none of the "nature adorned" business at the White House under her rule if example counts for anything.

It is rumored in New York that Blaine will become editor of the American Magazine. The proprietor, A. E. Davis, has been interviewed, but refused to deny or confirm the report. Many people are disposed to credit the story.

Syrup of Figs Is Nature's own true laxative. It is the most easily taken, and the most effective remedy known to cleanse the system when Bilious or Costive; to cure Headaches, Cold and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. Sold by Wm. Fenniger, Reno.

The internal revenue receipts during the last year were greater than those of any other year (except 1883) in the history of the country.

Some changes will be noticed in the State table.

Supt. S. L. Jones was a passenger for the Bay last night.

Supt. Jerry Whited was up from Wadsworth yesterday.

Judge Bigelow will hold Court in Churchill county next week.

Picture moldings and curtain poles at Osburn & Shoemaker's.

Mapse and Crane yesterday bought McConaughy's band of cattle.

H. H. Beck, of Washoe, would make a good Speaker of the Assembly.

Senator Evan Williams is mentioned for President pro tem. of the Senate.

Wall paper, from cheapest blacks to rich gold, at Osburn & Shoemaker's.

Mixed paint, the best in the world, all colors, at Osburn & Shoemaker's.

Sewing machines 30 per cent. cheaper than elsewhere at Osburn & Shoemaker's.

Lincoln county, with 283 votes, has three members of the Legislature. Washoe, with 1,572 votes, has five.

Theo. Sutro, President of the Sutro tunnel, accompanied by his wife, returned to San Francisco last night.

Hon. Thomas Wren and Judge Rives came in from Eureka last night en route to Carson on legal business.

Reno will be livelier than ever next year. There will be an actual boom that will astonish the oldest inhabitant.

Lots of new goods at the White House. Their entire stock is the best ever brought out by the Abrahams Bros.

What next! In Fredricks' show window can be seen a clock suspended from the pendulum of which is a cute little doll.

Lange & Schmitt keep everything in the line of hardware, stoves and tinware, and also do all kinds of plumbing. Their prices are reasonable.

J. A. Fitzgerald and wife, Mr. Smith, and Mrs. J. F. Emmitt returned from Sierra Valley yesterday. Senator Emmitt will arrive this morning.

Humboldt polled 777 votes at the last election. Humboldt has four members of the Legislature, while Washoe, which polled more than twice as many votes as Humboldt, has only five members.

Supt. Yerington came over from Carson yesterday in a special, accompanied by his wife, D. A. Bender and wife, and Mrs. Crocker, who has been visiting Carson for several days. The Supt. and party returned to Carson at 2 o'clock.

Work is progressing favorably on Jimmy Conroy's new house on Centre street, under the direction of G. E. Holesworth. The cottage contains five rooms, bath and closet, and the arrangement is admirable. The cost will approximate \$1,800.

The ladies of the Congregational Society will provide a turkey dinner at the rooms lately occupied by Mrs. Roff as a restaurant, corner of Second and Sierra streets Thanksgiving Day, for all who may call on them between 12 and 7 p. m. Price 50 cents.

Eugene Howell, from the Eastern part of the State, was in town yesterday, and said Reno had improved 200 per cent. since he was here a year ago. He reports Eastern Nevada quiet, but looks for better times next year. Mr. Howell went below last night to rest for a couple of months.

Storey county polled 2851 votes at the late election. Washoe polled 1572, so while Storey did not poll twice as many votes as Washoe, still it has thirteen members of the Legislature, and Washoe only five. Storey is entitled to about fourteen of the entire sixty, but Washoe is far from having her just representation.

For SPEAKER.—The Carson Appeal says: "Tremore Coffin is mentioned as a likely candidate for Speaker of the Assembly. Mr. Coffin is well versed in parliamentary rules, and it is time Ormsby county had a Speaker of the House, a distinction it has not enjoyed for many years."

A FAIR APPORTIONMENT.

How the Legislature Should Be Appointed Under Existing Circumstances.

It has long been manifest that the present apportionment of legislators is unfair and unjust, and one of the first acts of the incoming Legislature should be to reapportion the State for Legislative purposes, and as fair as possible under the circumstances. Taking the vote cast at the last election, having in view the fact that the sparsely populated counties have elected Senators, it is apparent that something like the following would be nearly right:

SENATE. ASSEMBLY.

"CHAT" SOCIAL.—The young misses of Trinity Sunday School Guild are going to give a "chat" social on Friday evening at Armory Hall. This is something new, and will furnish lots of amusement to those who attend. Like selecting partners for a dance, each man will have the privilege of selecting his partner for the chat, only he must chat on the subjects assigned. Refreshments will be on hand and also fancy articles for sale. During the evening Mr. Booton will preside as auctioneer, and everything for sale will be disposed of. The admission is only 10 cents, and if you do not want to spend more than this your life will not be worried out of you.

DOUBLE WEDDING.—At 5 p. m. yesterday the M. E. Church was well filled with friends to witness the marriage ceremony of Alfred Nelson to Augusta Johnson and of W. Patterson to Louise Johnson, which was performed by Rev. Mr. De La Maty.

The sisters looked exceedingly attractive in their dainty bridal costumes, while the lucky gentlemen plainly showed their happiness, and after receiving the congratulations of all present, left the church to prepare for their trip to San Francisco for which city they departed on the evening train to spend their honeymoon. The presents were numerous and elegant.

THE GOLDEN GATE SPECIAL.—The new "Golden Gate Special" is scheduled to go through Reno on its first west-bound trip on Thursday, December 6. It will return from San Francisco and pass Reno on the following Sunday morning.

AN ARMY OF TRAMPS.—The Pasadena Union says there are at least 350 tramps along the road from Los Angeles to Mojave. They travel in gangs of fifteen and burn ties and loose lumber at nights to keep warm.

NOTICE TO THE PUBLIC.—The barber shops of Reno will close on Thanksgiving Day at 1 o'clock p. m. and remain closed the balance of the day. Patrons will govern themselves accordingly.

The Perfection Of the egg in the medical line is the liquid fruit remedy, Syrup of Eggs, manufactured only by the California Fig Syrup Company, San Francisco, California. It is agreeable to the taste, acceptable to the stomach, harmless in its nature, painless yet prompt and thorough in its action. Sold by Wm. Pininger, Reno.

All should remember the Thanksgiving dinner to be given to-morrow by the ladies of the Congregational Church in the old Everett corner building.

The Chicago Tribune says: As to Utah, the best disposition to make of her is to unite her to Nevada when the proper time comes, and the same policy should be followed in the union of Arizona and New Mexico. Utah and Nevada would make a fair State, and so would Arizona and New Mexico. The Mormon element in the one case and the Grecian element in the other would be rendered comparatively innocuous by such a union.

HOW TO GROW.

Plan of Improvement That Would Pay.

WASHOE COUNTY CAN BE DOUBLED

Wealth of Elements that Can be Brought Together.

From last evening's Gazette:

When he was settling up the estate of Mr. Thrall, the brewer, Sam Johnson advertised: "It is not a lot of old vats and kettles we are selling, but the potentiality of wealth beyond the most extravagant dreams of avarice."

The man who can bring land and water together in Nevada has, like Mr. Johnson's friend, the potentiality of unlimited wealth. There is no better land in any country, and no such opportunities for securing rapid fall to give water-power, reservoir sites, etc. There is no land more easily cleared than the fine valleys stretching for miles through the State in every part of it. There is no such country for stock, for every small farmer who locates a quarter-section in any valley has mountains near by full of bunch-grass and browse, where he can raise few sheep, horses or cattle at very little cost. He has as good a market as any farmer in the world for stock, grain, hay, fruit, or vegetables. He has the best climate in the world to live in and raise his children. He never fails to get a crop, for he does not depend upon

THE CAPRICIOUS CLOUDS, But upon his own energy, for his water supply. There is an opportunity for enterprise right at our doors, which has the "potentiality" to a remarkable extent, and it is a wonder it has never been taken advantage of. A ditch could be built from a point on the Truckee river nearly opposite the head of the Steamboat ditch, on the north side of the river to the splendid land in Prosser, Spanish Springs and Cottonwood valleys at a cost not to exceed ten dollars an acre on the land it would reclaim. Such a ditch would get a good line all the way, except around the sand grade above Bates' ranch and the rocks above Langton's. It would go through Crystal Peak, and would begin to cover good farming land when not more than three miles long. Between Peavine mountain and the Truckee river lie great benches of excellent land that are in elegant shape for farming for fruit, grain or hay. There are many places below the line where reservoirs could be built cheaply, and these filled during the high water times in the Spring, and then drawn off on lands below them as needed. Such a ditch would not be high enough for Lemmons' valley, but it would find plenty of land just as good and not so frosty. Surveys have been made of the line and its cost very closely estimated. A citizen of Reno has all the data, and any one interested can learn all about the matter. It seems that such a work as this could be carried out with

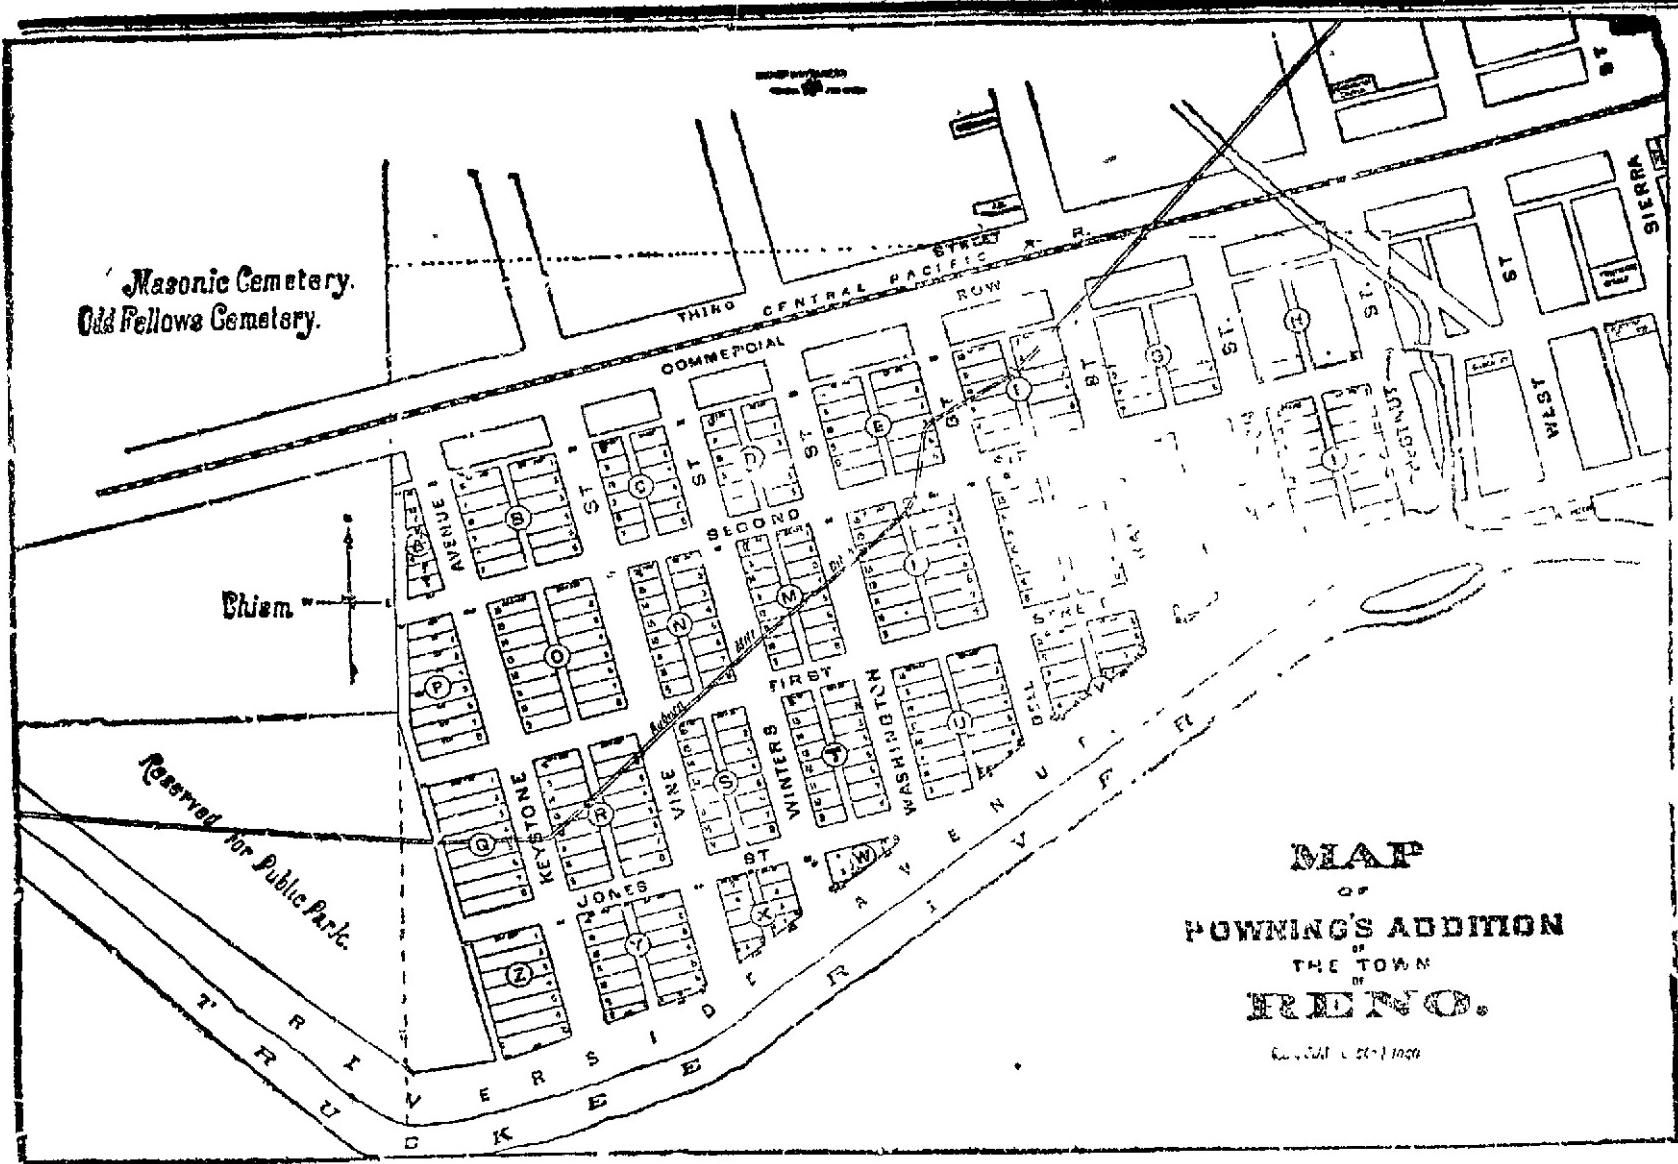

A VERY LITTLE CO-OPERATION Between the State, the railroad and the people. Let a good company be formed, and the State and the railroad would no doubt put in their lands under a bond. Then let the company issue interest-bearing bonds on lands, water rights, ditch, surveys, and all their property, to get the canal built. Their bonds could be made payable from the sales of land as fast as they came in and they would more than pay off every cent, leaving the fortunate proprietors in possession of a property worth a million, and bringing in eighty thousand dollars per annum.

There is not an acre of land now in Washoe county under a ditch that can be bought for ten dollars an acre, no matter how rocky or hilly it may be, and nine-tenths of the land below the line spoken of would be smooth, rich land, free from alkali, rocks and gullies, sloping to the south, with good drainage and everything to recommend it. There is not a man in Reno who owns a dollar's worth of property but could afford to take stock in such a work, for it would double Reno, double the agricultural resources of Washoe county, increase the importance of the State and benefit the whole country.

A BRIGHT STAR.

Carson Puts North a Claimant as prima donna.

The Enterprise says Nevada has produced many good voices, several of whom have attracted wide-spread attention, ranking in the front place. Carson now steps out with another favorite who will surely assert her place and boldly contest the field for popular renown. Her name is Mamie Ballard, and resided on the Comstock as a child for several years, having attended the public school there for over two years. From there she was placed in Bishop Whistler's school for Girls, where she studied for five years, and then went to Mills' Seminary at Oakland, Cal., remaining there six years, graduating last May and obtaining a certificate to teach vocal and instrumental music, and the German and Italian languages.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Lander County, the wealthiest county in Nevada.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

NEW ORLEANS La.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

THE MARCH OF PROGRESS. OUR LATEST IMPROVEMENTS!

"Competition in the sale of Trade," and if you have received our latest improvement in goods, send us your name and address, and we will send you a copy of "The James Means' \$3 Shoe."

Positively one genuine unless having our name and price stamped plainly on the sole.

Our retail price is now \$3.00, and we are now visiting the shoe retailers of the United States.

Mountain Region writes from them as follows:

"Such has been the recent progress in our branch of industry that we are now able to inform you that the James Means' \$3 Shoe is now equal to those which only a few years ago were sold at ten dollars."

If you will try on a pair you will be convinced that we do not exaggerate. Our shoe is original \$3 and \$4 shoe, and those who initiate our sales have been surprised at the quality of factory products.

In our stores are the chief manufacturers in the United States.

"I am more than satisfied with the results of my trip. I have thus far succeeded in placing our full line in the hands of A. T. & C. L. Co. and James Means' \$3 Shoe."
